PROFESSIONAL SUMMARY

DevOps & Cloud Engineer with hands-on skills in **Docker, Ansible, Jenkins, Kubernetes**, and cloud platforms like **Azure** and **AWS**. Skilled in building and optimizing CI/CD pipelines to drive automation and efficiency. Strong problem-solving and analytical abilities demonstrated through **competitive programming**. Eager to contribute fresh perspectives and grow in a dynamic tech environment.

EDUCATION

Bachelor of Technology: Electronics and Telecommunication (8.99 CGPA) 2020-2024
Pimpri Chinchwad College of Engineering, Pune Maharashtra, India

Higher Secondary Education: Science Mathematics (9.24 CGPA) 2018-2020
SMV, Akluj Maharashtra, India

SKILLS

Programming Language: C++ | Core Java | Basic Python **Version Control System:** Git | GitHub
Containerization: DOCKER | **Configuration Management:** ANSIBLE | **CI/CD:** JENKINS | **Orchestration:** KUBERNETES **Linux:** Ubuntu | **Cloud services:** AWS | Azure

EXPERIENCE

CAPGEMINI : Cloud Support Engineer (1.5 YEARS)

- Managed AWS and Azure cloud operations, optimizing EC2 and VM performance to improve application response time.
- Performed Linux and Windows system administration, including patching, user management, storage configuration, and troubleshooting.
- Built and supported Jenkins CI/CD pipelines for automated deployments, patching, and security agent installations.
- Worked with Docker and containerized workloads on AWS ECS.
- Handled security, monitoring, and compliance, including IAM, SSL/TLS certificates, vulnerability remediation, and infrastructure monitoring using CloudWatch and Azure Monitor.

PERSISTENT : Martian Summer Internship

June 2023 - Aug 2023

- During this summer internship provided by Persistent, I've completed various courses such as Linux, Data Structures and Algorithms, and Database Management Systems, Core Java.

- Worked on simple Java projects using OOP concepts and core libraries. Built interactive programs like games, calculators, and banking systems, improving problem-solving and user input handling skills.

PROJECTS

Automated Code Delivery: GitHub Webhooks and CI/CD Pipelines [Link](#)

- Optimized Node.js application deployment using **Jenkins and Docker** for faster and reliable releases.
- Set up **AWS EC2 infrastructure** and configured Jenkins to build automated CI/CD pipelines.
- Integrated **GitHub webhooks** to trigger pipelines automatically on code changes.
- Streamlined deployment workflows, improving productivity and delivery efficiency.

GitHub and JIRA Integration [Link](#)

- Reduced manual status updates by **90%**, saving **~5 hours per developer per week** through automation.
- Implemented webhook-based integration to achieve **real-time synchronization** between GitHub and JIRA.
- Improved traceability by **100%** by automatically linking commits and pull requests to JIRA tickets.
- Automated ticket status transitions for PR creation, review, and merge, **speeding up release cycles**.
- Enhanced cross-team visibility and collaboration with **real-time updates and reporting**.

Certifications

- **Microsoft Certified: Azure Fundamentals**
- **Microsoft Certified Azure Administrator Associate**
- **AWS Certified Cloud Practitioner**
- **Docker Fundamentals**
- **Ansible for Beginners**
- **Jenkins-Automating your delivery pipeline**

Awards and Honors

- **Savitribai Phule 4 times University topper**
- **Rank 2 in CodeXcelerate held by CSI-MIET**
- **Rank 2 DSA Sprint held by NIT Durgapur**
- **1150+ Daily Streak maintain at LeetCode, CodingNinjas, Codechef and GFG**
